Dear [Patient Name]

**NHS Number: [NHS Number]**

We are writing to you further to our recent letter informing you that you are now eligible for an extra dose of the COVID-19 vaccine in light of the latest advice from the Joint Committee on Vaccination and Immunisation (JCVI).

The advice recommends that a third dose is given for individuals aged 12 and over with immunosuppression and you are eligible within this category given your current health condition. This is being advised as a precautionary measure to increase your immunity level and provide a better vaccine response, based on studies and experience with other vaccines. It is part of your primary course of vaccination and is separate to a booster vaccination, which you will likely become eligible for in six months' time, pending further advice. It is recommended that the optimal timing to receive your vaccination must be at least 8 weeks after your second dose.

You are not able to book to get this additional vaccine as the National Booking System will not support this so please do not attempt to book or call 119 as they will not be able to help.

To get the 3<sup>rd</sup> dose there are 3 options:

- Sheffield NHS Vaccination Centre on Longley Lane offers walk-ins everyday Monday to Sunday between 8am and 6.30pm. The post code for this site is **S5 7JN**. There is **FREE** parking at the venue. **Please bring this letter with you.**
- Attend one of the local "Grab A Jab" sites in your area. Details of all of these sites and their opening times can be found at this address. <https://www.nhs.uk/service-search/find-a-walk-in-coronavirus-covid-19-vaccination-site> **Please bring this letter with you.**
- Your GP may invite you to have this at a local Primary Care Network or at another site they direct you to. **Please do not contact your GP in relation to this letter.**

For more information about the coronavirus vaccine visit [www.nhs.uk/covid-vaccination](http://www.nhs.uk/covid-vaccination).

Yours sincerely
